

## **Corporate Environmental Policy**

October 2012

The Board of Directors of Anaconda Mining has established a Corporate Environmental Policy that guides the action of the Company. This Environmental Policy is followed and promoted by all employees and contractors hired by the Company. It is considered to be a part of the overall Corporate Governance Policy. It is regularly monitored for compliance with appropriate reviews to ensure effective implementation.

Anaconda Mining is fully committed to environmentally responsible development and will ensure that all phases of its projects will follow this approach to resource development. In the context of all its projects, Anaconda Mining Corporation will:

- Ensure that responsible and effective environmental management planning is carried out for all aspects of the project;
- Monitor all activities through all phases of development of the project for environmental compliance and management programs with a commitment to follow up in a timely and effective manner;
- Develop, design, and operate facilities that are based upon the efficient use of energy, resources, and materials;
- Identify, assess, and manage environmental risks;
- Develop, maintain and test emergency preparedness plans to ensure protections of the employees and the environment;
- Require contractors and consultants to comply with corporate environmental requirements and to monitor their environmental performance;
- Ensure there is adequate environmental training for all staff and contractors and to encourage dialogue and understanding of environmental and community concerns through all phases of the project; and
- Ensure that closure and reclamation planning is integrated into mine feasibility planning and that there are adequate resources available to deal with closure at all phases of the project.
